

The meeting place for innovations in new mobility, is back on track

The 14th edition of the International Business Convention,
June 8 and 9 on the Technoparc of le Mans 24 hour circuit

After a 2021 edition in reduced format, focused on additive manufacturing, let's meet again next June to take advantage of a rich and varied programme.

1to1 meetings: pre-arranged high quality meetings

Conferences:

- How **CETIM** supports the electrification of vehicles
- **Haïku**: In the face of economic uncertainty, performance is maintained thanks to the keys of the TPS
- **3D Print - 3D Medical**: The challenges of mastering metal technology in additive manufacturing

Round-tables:

- The manufacturing and development of adaptive test benches
- Exchanges and advice to benefit from territorial and **PFA** financial support

An "**additive manufacturing village**", where the latest 3D printing technologies are proposed

An **exhibition space**, to present the expertise

Product **demonstration areas**, services for industry

The floor is to the **startups**

Job fair **engineer students**

VIP access to pits and paddocks during the practice sessions of Le Mans 24 hour race

Tech talk in **Michelin Competition** or **Goodyear Racing** assembly workshop

Possibility to view the **qualifying** practice session by night

Tasting of **local products**

Decision-makers, buyers, sales representatives, engineers from all sectors concerned by these exchanges, motorsports, automotive, industrial vehicles, aeronautics, railways, space, defense and the manufacturing industry in general participate in these two exceptional days.

So we only need you, don't wait anymore, register now!

A video recalling the important moments of a previous edition is available on www.ibdlemans.com
